The Sandipins are eagerly waiting to welcome the technophiles from all over  
Maharashtra to the magnificent campus of Sandip Foundation Nashik in First  
Week of Feb 2020.

**WELCOME ALL!!**

## *What, When & Why Apex 20?*

There is one thing that is constant and that is change and so to invigorate the youth with the upcoming trends in science and technology Computer Department of Sandip Institute Research And Technology have come up with a Mega event "Apex 20".

Technology has advanced almost to the peak. It improves the quality of lives of human beings and helps ease the burden of human in every work field. Technology has shortened the distance between people around the world .

# Vision

Motto of **Apex 20** is to hunt for technophiles/techies of different domain and to bring together smart and like-minded technician to build a quality network.

1

Build a quality network.

2

Inspire and encourage innovation

3

Boost to become thought leaders.

4

## Theme & Overview

### Theme

Human space exploration helps to address fundamental questions about our place in the Universe and the history of our solar system. Through addressing the challenges related to human space exploration we expand technology, create new industries, and help to foster a peaceful connection with other nations.

Space-based technologies, such as satellite communications technologies, are helping to bridge this access gap between people scattered all over the globe. Technologies like web and videoconferencing and voice over Internet protocol allow educators and students to create virtual classrooms, regardless of physical locations. Other versions of distance learning allow learners to access web based course materials on their own schedules, and communication between students and teachers may take place through e-mails, message boards or video recordings. Space plays a vital role in the field of education our entire theme is based on "Space".
